Broadband is described as 'up to' 8Mb because download speeds will vary depending on your telephone line and where you live. The average speed on up to 8Mb broadband is 5-6Mb. BT Wholesale estimates that 78% of customers will get download speeds of 4Mb and above. Download speeds will vary a lot in the first 10 days after connection and will then become more consistent.

2 - You'll get a free 1-Port router if you stay with us for 12 months. Leave within 12 months and you'll pay the full cost of the router (see full terms on the website)

3 - You'll get a free 4-Port wireless router if you stay with us for 12 months. Leave within 12 months and you'll pay the full cost of the router (see full terms on the website)
