Sub-Domain : Destination :

Mail Entries

These entries are a list of mail servers to which mail should be delivered. If you enter more than one address, anyone sending email to your domain will try each address, in the order they appear, to try and deliver the message.

Only enter hostnames. IP-addresses will not function in this section.

Mail Server :	<input type="text"/>
Backup 1 :	<input type="text" value="in1.smtp.messagingengine.com"/>
