My Mailboxes

Your account automatically comes with a default mailbox. From this you can then create new, password-protected mailboxes, each with their own email address.

Here you can see and manage all the mailboxes for your account.

ADD NEW MAILBOX

If you have a hosted domain and no longer want to receive email to your standard mail account (e.g. neobard.plus.com) you can set this in the Spam tab.

List mailboxes: A - Z Show: 1 - 10

Search: begins with **GO**

	1	.plus.com	(default) rename
	2	plus.com	edit : delete
	3	.plus.com	edit : delete
