rovides reliable protection of metals and alloys (brass, copper, alloy steel, cast iron, aluminum) from all forms of corrosion, and also prevents high-temperature corrosion of aluminum surfaces of modern engines;

- It has outstanding thermal stability. Protects from a scum;

- It has excellent thermal conductivity and resistance to foaming;

- Neutral to gaskets and hoses, compatible with all types of rubber and plastic parts of the cooling system;

- It has excellent hard water resistance and very low corrosion inhibitor depletion rates;

- Highly effective carboxylate additive package (OAT), provides exceptional stability in the performance properties of antifreeze throughout the entire service life

- Does not contain silicates, nitrates, phosphates and amines (NAP free technology);

- Has an extended service life in cooling systems: cars - up to 250 thousand km; commercial vehicles - up to 500 thousand km; stationary engines - up to 6 years.

Recommended for engines requiring improved heat dissipation: highly accelerated engines, turbocharged engines and cooling systems of modern commercial vehicles.

Colour: green.

Kind Regards,

Mannol UK Sales Team
