NTE FacePlate	N
Last Test Date	20-10-2020

FTTP Priority Exchange	N
WLR Withdrawal	N
SOADSL Restriction	Y

The premise/line is associated with exchange which is NOT part of current fibre priority programme.

The premise/line is associated with exchange where WLR is not withdrawn.

The premise/line is associated with exchange where SOADSL service is restricted.

FTTP is not available.

For all ADSL and WBC Fibre to the Cabinet (VDSL or G.fast) services, the stable line rate will be determined during the first 10 days of service usage.

Actual speeds experienced by end users and quoted by CPs will be lower due to a number of factors within and external to BT's network, Communication Providers' networks and within customer premises.

The Stop Sale date for IPstream is from 31 Oct 2013. The Formal Retirement date for IPstream is from 30 Jun 2014.

If you decide to place an order for a WBC fibre product, an appointment may be required for an engineer to visit the end user's premises to supply the service

In order to be eligible for handback, downstream speed should be less than Downstream Handback Threshold values.
