Home > Advanced settings > Advanced wireless

Changes need to be saved

Configuration

Save Back

You can use this page to customise your wireless settings.

If you make any changes on the page remember to click the **Save** button.

Reset to recommended

2.4 GHz 5 GHz

Wireless: ON ON

Channels: Smart (Channel 1) Rescan Smart (Channel 36) Rescan

Network name: PLUSNET-KCC2R8

WPS: OFF Start WPS

Security type: WPA2

Security password: Ewenny29109

Password strength: [Progress bar]

Wireless mode: Mode 1

At this point Save does not work. If I change other settings (eg channel) save works and Orange changes to green – as below (but green disappeared quickly)
