Hi - what more do you need. I have tried the plusnet sim in other phones and same issue. EE and O2 sims don't have any problem.

Please see screenshots for reference.

Regards

Hi manishmodi,

abails0105 (Plusnet Help Team) mentioned you in a post! Take a look at what they said and join in the conversation here:

[Re: Roaming service in Kenya](#)

Thanks for getting back in touch [@manishmodi](#), I do apologise you're still experiencing issues with your mobile service.

From what I can see my colleague has requested some examples of this issue occurring. As I'm unable to see my colleagues private message, can you please confirm if you sent these examples via PM?

Regards,

Alice

See you there soon!

Best wishes,
Plusnet Help Team
