

PLUSNET CALL PROTECT TABLE

Menu options after dialling 1572:

1	Add last answered call to diverted calls list (ie all calls from this specific number go to 1572 voice mail)	1	Confirms adding number to diverted list				
2	Remove last entry from diverted calls list						
3	Listen to recorded messages						
4	Personal Option	1	Use recommended list of known nuisance callers				
		2	Make own list	1	On/Off		
				2	Add number		
				3	Hear last entry		
				4	Hear short list of entries		
		3	Divert by call type	1	On/Off		
				2	Withheld Numbers	1	On/Off
				3	International Numbers	1	On/Off
				4	Unrecognised Numbers (known as unavailable on 1471)	1	On/Off
		4	VIP callers (calls never sent to junk voicemail, irrespective of other settings.)	1	On/Off		
				2	Add number		
				3	Last number		
				4	Search for number		
				5	Short list of oldest numbers		
		5	Do not disturb (All wanted calls will be sent to personal voicemail [1571 Not activated in our case – we use answerphone. One user has reported that numbers recorded in 1571 cannot be added to the 1572 diverted list automatically]. Unwanted calls will carry on going to junk voicemail (1572). When number added to VIP list there is option to ignore Do Not Disturb so it still comes through.				

(not complete with all options)
