

The **estimated speed** shown above is based on information held by BT Wholesale. Estimates are the maximum speeds that your phone line can support. We've signed up to Ofcom's broadband speeds voluntary code of practice, see our [summary](#) for more information.

i Your existing service should carry on working until you're switched over.

An engineer needs to install a new phone line at your property. Once it's active, your broadband should activate within 5-7 working days.

Phone

Line rental

When you switch your phone service to Plusnet you'll pay line rental to us, instead of your current provider. Pay £15.95 monthly or save money with Line Rental Saver.

i **Line Rental Saver** provides 12 months standard phone line rental. Additional call plans, non-inclusive calls, and call features will be billed each month.

After this, Line Rental Saver can be renewed for another 12 months; otherwise you'll be charged at the standard **Monthly Line Rental** rate.
